Date: August 13, 2010

Re: CCAC Procurement Update

The following update should not be considered a Request for Proposals. It only reflects the current planning among CCACs and is dependent on the issue of MOHLTC Directives for CCAC Procurement. Prequalified Applicants will receive direct notice of the issue of an RFP. Future Requests for Prequalification will be posted on MERX and on the OACCAC website.

The following CCACs have asked me to communicate their tentative plans as:

Planning to Issue an RFP in the 1st quarter (April-June) 2010:

- ~~○ Central East CCAC for medical equipment, medical supplies and infusion therapy~~

Planning to Issue an RFP in the 2nd quarter (July-September) 2010:

- Central West CCAC for medical equipment, medical supplies and infusion therapy
- Central CCAC for infusion therapy and medical supplies
- ~~○ Waterloo Wellington CCAC for nursing services~~
- ~~○ Champlain CCAC for personal support services~~
- ~~○ Toronto Central CCAC for Children with Complex Care Needs~~
- Central East CCAC for medical equipment, medical supplies and infusion therapy - **NEW**
- **Note that ESC CCAC is initiating a procurement process for medical supplies. As ESC CCAC uses an in-house service model, the Supplies and Equipment RFP templates and the provincial list of Prequalified Applicants will not apply to this process.**

Planning to Issue an RFP in the 3rd quarter (October-December) 2010:

- ~~○ South West CCAC for bundled nursing, personal support and therapy services~~
- North Simcoe Muskoka CCAC for personal support services
- Central East CCAC for therapy services
- Central West CCAC for therapy services
- Toronto Central CCAC for Children with Complex Care Needs - **NEW**

Planning to Issue an RFP in 4th quarter (January-March) 2011:

- South East CCAC for personal support

Changes from the previous notice are identified. Please note that these plans and dates are tentative and that either may change.
