

**For Immediate Release**

## **Toronto Central Community Care Access Centre Named One of Greater Toronto's Top Employers**

**Toronto, ON, October 17, 2009** – Toronto Central CCAC has been named one of Greater Toronto's Top 90 Employers by Mediacorp Canada Inc. Winners of The Greater Toronto's Top Employers Competition were selected after their editors examined recruitment histories of over 75,000 employers across Canada that it tracks for its popular job search site, Eluta.ca.

"I am extremely proud of this achievement, as being named a Top Toronto Employer underscores our commitment to delivering outstanding care to our clients and their caregivers," says Camille Orridge, CEO of Toronto Central CCAC. "It also reflects the dedication and enthusiasm that all our frontline staff, management team and board of directors put into making Toronto Central CCAC a great place to work."

Mediacorp editors graded each of the applicants on eight key areas: (1) Physical Workplace; (2) Work & Social Atmosphere; (3) Health, Financial & Family Benefits; (4) Vacation & Time Off; (5) Employee Communications; (6) Performance Management; (7) Training & Skills Development; and (8) Community Involvement. These criteria have remained consistent since the inception of the national competition, now in its 10th year. Mediacorp editors also publish detailed reasons why each of the winning employers was selected on their job search site, Eluta.ca.

### **ABOUT TORONTO CENTRAL CCAC**

Toronto Central CCAC connects people across Toronto with quality in-home and community-based health care. We provide information, direct access to qualified care providers and community-based services to help people come home from hospital or live independently at home. In any given month we:

- Provide 19,000 people with care in their homes and community
- Respond to 23,000 calls with information and referral services about health care and community services
- Support 1,700 children with health care services in schools
- Transition 7,000 people from hospital to home and
- Transition 240 people from hospital to long-term care
